

**ART4SPACE
CREATE . CONNECT . INSPIRE**

WHO ARE WE?

Arts4Space works closely with our communities to improve the wellbeing of all Londoners through the power of art.

We run a wide range of art courses, all of which promote wellbeing and aim to boost the confidence of participants through the arts. This might be a 7 year old boy struggling at school or an older mum looking to get back into work

We also believe in enhancing areas of disadvantage through community arts. We connect and empower people to create and make mosaic murals which visually enhance their area.

Corporate partnerships are an integral part of our work to help strengthen communities and essentially get these projects running. We like to get your employees working directly on community projects. This way you get to see first hand, the positive impact of these projects; how they strengthen neighbourhoods and people's wellbeing. While local people or children gain confidence and enjoy the benefits of art, your team gain a new perspective, a feeling of community and a chance to make genuine connections with these communities. We believe this helps reduce feelings of disconnection and in turn improves wellbeing for all.
